A Tip From The Pros You Can Use At Home

Rubber-Band Bolt Holder

Mechanics often use special magnetic inserts in sockets to prevent the bolt from falling out while they try to thread it into a tight spot. You don't need to waste money on those gadgets. Simply cut a rubber band into strips and lay a strip across the opening of the socket. Then insert the bolt head. The rubber band will wedge the bolt head in the socket, allowing you to start threading without losing the bolt. Kura Sushi now at the Mall of America!

Kura Revolving Sushi Bar, a Japanese restaurant featuring a conveyor belt system on which sushi and other dishes travel from the kitchen directly to guests' tables, just recently opened at the Mall of America.

Kura Sushi is located on the third floor of the Bloomington mall, across from the Culinary on North food court. Crawford Merz, the preferred contractor for the Mall of America, has a number of projects recently completed and in the works at the mall for you to visit in 2023.

Crawford Merz LLC., 33 South Sixth Street #4510, Minneapolis, Minnesota 55402, 612-874-9011
